MINOR PROPHETS

(AMOS, MICAH, JOEL & JONAH)

A comprehensitve study of the Minor Prophets—specifically Amos, Micah, Joel, and Jonah—reveals that while their writings are shorter than those of the Major Prophets, their messages hold massive theological weight. These four books primarily address themes of social injustice, divine judgment, superficial religion, and the unexpected boundaries of God's mercy.

TUNG LING SEMINARY

BOOK OF ACTS

The Book of Acts is a gripping account of the extraordinary expansion of Christianity from AD 30 30 - 60. This course will examine Acts in detail, emphasizing major historical and theological themes in the text. Students will learn how the church understood its mission in Jewish and Greco-Roman settings, the doctrines related to Christian conversion, the work of the Holy Spirit, and the ministry of the church. It will provide guidelines for applying the lessons of Acts today.

Dr. Immanuel Vasudevan

Dr. Immanuel Vasudevan brings over 25 years of pastoral and cross-cultural experience spanning Malaysia, India, the UK, the UAE, and Sri Lanka. He earned his Doctor of Ministry (D.Min) from Asbury Theological Seminary with honours and previously completed his Master of Divinity (M.Div) at SAIACS in Bangalore. His doctoral research, "Effective Intergenerational Preaching Effectively Across Generational Lines, Effective Holistic Transformation," bridges evangelical theology with practical ministry across generations. He is passionate about integrating deep Scripture-based theology with practical leadership formation, emphasizing academic excellence, cultural sensitivity, and intergenerational connection.

TUNG LING SEMINARY

SYNOPTIC GOSPELS

Matthew, Mark, and Luke are called “Synoptic Gospels” because they can be seen together. What that actually means is that these gospels contain many of the same stories, and that those stories are sometimes even presented in the same sequence within each of the three different synoptic gospels. There are, of course, substantial differences in style from one gospel to the next, and in addition to shared content, each gospel has content that is completely unique to itself. Still, the three gospels interact with each other through the overlapping use of many stories, narratives, dialogues, and images.

PAULINE PRISON EPISTLES

PHILIPPIANS, PHILEMON, COLOSSIANS & EPHESIANS

The Prison Epistles, also known as the Captivity Epistles, consist of Ephesians, Philippians, Colossians, and Philemon. These letters derive their name from the common theme of Paul's imprisonment or confinement in house arrest. Throughout these epistles, Paul refers to himself as "the prisoner for Christ," "a prisoner for the Lord," and "an ambassador in chains." In addition to their shared theme of imprisonment, the Prison Epistles also contain a common Christology, which focuses on describing the person and office of Christ.

PNEUMATOLOGY

Explore about the work of the Holy Spirit through pneumatology, a theological term for the study of the Holy Spirit. The word comes from two Greek words: pneuma, meaning "spirit" or "breath," and logos, meaning "word" or "study." Pneumatology is one of the core categories of Christian systematic theology, alongside Christology (the study of Christ), ecclesiology (the study of the church), and soteriology (the study of its purpose is to help us understand the Spirit's identity and work, as outlined in Scripture. Studying the Holy Spirit in this way isn't just an intellectual exercise. It's how we get to know and walk with Him, not just through emotions, traditions, or experiences, but through the truth of God's Word.
